About MobileIron AppStation

MobileIron AppStation is a MobileIron Cloud client for a MAM-only deployment. A MAM-only deployment allows you to distribute and manage apps without having to manage the device itself.

New feature summary

For new features released in previous releases, see [MobileIron AppStation Product Documentation](#) for that release.

This release is made available to provide support for Android Q. The release does not include any new features.

Support and compatibility

The information in this section includes the components MobileIron supports with this product.

- [Support policy](#)

- [MobileIron components](#)

NOTE: The information provided is current at the time of this release. For MobileIron product versions released after this release, see that product version's release notes for the most current support and compatibility information.

Support policy

MobileIron defines supported and compatible as follows:

TABLE 1. SUPPORTED AND COMPATIBLE DEFINITIONS

Term	Definition
Supported product versions	The functionality of the product and version with currently supported releases was systematically tested as part of the current release and, therefore, will be supported.
Compatible product versions	The functionality of the product and version with currently supported releases has not been systematically tested as part of the current release, and therefore not supported. Based on previous testing (if applicable), the product and version is expected to function with currently supported releases.

MobileIron end of sale and support policy

For the MobileIron End of Sale and Support Policy, see [MobileIron End of Sale and Support Policy](#).

MobileIron components

The following table provides supported and compatible information for MobileIron components.

TABLE 2. SUPPORTED MOBILEIRON COMPONENTS

MobileIron Components	Supported version
MobileIron Cloud	R63 through the most recently released version as supported by MobileIron.
MobileIron Threat Defense	Management console: zConsole 4.22.5
Secure Apps Manager for AppStation	8.7.0.0

Device OS

The following table provides supported and compatible information for the device OS.

TABLE 3. SUPPORTED OS VERSIONS

Device OS	Supported version
Android	5.0, 5.1, 6.0, 7.0, 7.1, 8.0, 8.1, 9.0, 10.0

Resolved issues

For resolved issues in previous releases, see [MobileIron AppStation Product Documentation](#) for that release.

This release does not contain any new resolved issues.

Known issues

For known issues found in previous releases, see [MobileIron AppStation Product Documentation](#) for that release.

This release does not contain any new known issues.

Limitations

For limitations found in previous releases, see [MobileIron AppStation Product Documentation](#) for that release.

This release does not contain any new limitations:

Documentation resources

MobileIron product documentation is available at <https://help.mobileiron.com/s/mil-productdocumentation>.

The *MobileIron Cloud Administrator Guide* is also available from your instance of MobileIron Cloud by clicking on the **Help** link in the user interface.

MobileIron Support credentials are required to access documentation in the Support Community.
