New features summary

This release does not include new features or enhancements. For new features introduced in previous releases, see [MobileIron Assemble Product Documentation](#) for that release.

Support and compatibility

The information in this section includes the components MobileIron supports with this product.

NOTE: This information is current at the time of this release. For MobileIron product versions released after this release, see that product version's release notes for the most current support and compatibility information.

Support policy

MobileIron defines supported and compatible as follows:

Supported product versions	The functionality of the product and version with currently supported releases was systematically tested as part of the current release and, therefore, will be supported.
Compatible product versions	The functionality of the product and version with currently supported releases has not been systematically tested as part of the current release, and therefore not supported. Based on previous testing (if applicable), the product and version is expected to function with currently supported releases.

MobileIron Assemble supported and compatible table

This version of MobileIron Assemble is supported and compatible with the following product version:

Product	Supported	Compatible
MobileIron Core	10.2.0.0, 10.3.0.0	10.1.0.2

Resolved issues

This release includes the following resolved issues. For resolved issues identified in previous releases, see [MobileIron Assemble Product Documentation](#) for that release.

- **ASMBL-84:** An error message is no longer generated when a customized configuration is created on MobileIron Core and Assemble tries to retrieve the report.
- **ASMBL-82:** Assemble now creates a CSV file when "report send" is set to yes.

Known issues

This release includes the following known issue. For known issues identified in previous releases, see [MobileIron Assemble Product Documentation](#) for that release.

- **ASMBL-80:** Some Assemble executables are flagged as malicious by antivirus vendors. MobileIron is working with these vendors to address the false positive results.

Limitations

This release does not include new third-party limitations. For third-party limitations identified in previous releases, see [MobileIron Assemble Product Documentation](#) for that release.
