About MobileIron AppStation

MobileIron AppStation is a dedicated client for a MAM-only deployment. A MAM-only deployment allows you to distribute and manage apps without having to manage the device itself.

New features and enhancements summary

For new features released in previous releases, see [MobileIron AppStation Product Documentation Home Page](#) for that release.

This release includes the following new features and enhancements:

- **Support for iOS 14:** This release of AppStation provides support for iOS 14.

MobileIron Threat Defense features

MobileIron Threat Defense protects managed devices from mobile threats and vulnerabilities affecting device, network, and applications. For information on MobileIron Threat Defense-related features, as applicable for the current release, see the *MobileIron Threat Defense Solution Guide for Cloud*, available on the [MobileIron Threat Defense for Cloud](#) Documentation Home Page at [MobileIron Community](#).

NOTE: Each version of the MobileIron Threat Defense Solution guide contains all MobileIron Threat Defense features that are currently fully tested and available for use on both server and client environments. Because of the gap between server and client releases, MobileIron releases new versions of the MobileIron Threat Defense guide as the features become fully available.

Support and compatibility

The information in this section includes the components MobileIron supports with this product.

- [Support policy](#)
- [MobileIron end of sale and support policy](#)
- [MobileIron components](#)
- [Device OS](#)

NOTE: The information provided is current at the time of this release. For MobileIron product versions released after this release, see that product version's release notes for the most current support and compatibility information.

Support policy

MobileIron defines supported and compatible as follows:

TABLE 1. SUPPORTED AND COMPATIBLE DEFINITIONS

Term	Definition
Supported product versions	The functionality of the product and version with currently supported releases was systematically tested as part of the current release and, therefore, will be supported.
Compatible product versions	The functionality of the product and version with currently supported releases has not been systematically tested as part of the current release, and therefore not supported. Based on previous testing (if applicable), the product and version is expected to function with currently supported releases.

MobileIron end of sale and support policy

For the MobileIron End of Sale and Support Policy, see [MobileIron End of Sale and Support Policy](#).

MobileIron components

The following table provides the supported and compatible product versions with this release of MobileIron AppStation for iOS.

TABLE 2. SUPPORTED MOBILEIRON COMPONENTS

MobileIron Components	Supported version	Compatible
