About MobileIron AppStation

MobileIron AppStation is a MobileIron Cloud client for a MAM-only deployment. A MAM-only deployment allows you to distribute and manage apps without having to manage the device itself.

New features and enhancements summary

For new features released in previous releases, see [MobileIron AppStation Product Documentation Home Page](#) for that release.

This release includes the following new features and enhancements:

- **Support for Android 11:** This release of AppStation provides support for Android 11 devices.
- **Rebranding:** MobileIron has updated the AppStation for Android icon and user interface color scheme. For more information, see "What users see in MobileIron AppStation for Android" in the MobileIron AppStation for Android Guide for Administrators.
- **Additional threat defense information:** If you have a MobileIron Threat Defense (MTD) deployment, users see additional threat defense information when they tap on the MTD icon in AppStation. Users see the device and network-specific threat details and descriptions on how to fix the threats. For information on how to set up MobileIron Threat Defense, see the *MobileIron Threat Defense Solution Guide for Cloud*. For information on the MTD user experience on AppStation, see "MobileIron Threat Defense" in the MobileIron AppStation for Android Guide for Administrators.
- **Support for MobileIron Go and MobileIron AppStation on the same device:** The support allows for the MAM-only use case where you have contractors whose devices are already managed by another instance of MobileIron Cloud, however, you need to deploy required apps from your instance of MobileIron Cloud to the device. The supported MAM-only use cases are described in the "MAM-only use cases with MobileIron AppStation" and "MobileIron Go and MobileIron AppStation interaction" sections of the *MobileIron AppStation for Android Guide for Administrators*.

Support and compatibility

The information in this section includes the components MobileIron supports with this product.

- [Device OS](#)

NOTE: The information provided is current at the time of this release. For MobileIron product versions released after this release, see that product version's release notes for the most current support and compatibility information.

Support policy

MobileIron defines supported and compatible as follows:

TABLE 1. SUPPORTED AND COMPATIBLE DEFINITIONS

Term	Definition
Supported product versions	The functionality of the product and version with currently supported releases was systematically tested as part of the current release and, therefore, will be supported.
Compatible product versions	The functionality of the product and version with currently supported releases has not been systematically tested as part of the current release, and therefore not supported. Based on previous testing (if applicable), the product and version is expected to function with currently supported releases.

MobileIron end of sale and support policy

For the MobileIron End of Sale and Support Policy, see [MobileIron End of Sale and Support Policy](#).

MobileIron components

The following table provides supported and compatible information for MobileIron components.

TABLE 2. SUPPORTED MOBILEIRON COMPONENTS

MobileIron Components	Supported version	Compatible version
MobileIron Cloud	71, 72	Not applicable
MobileIron Threat Defense	Management console: zConsole 4.28.4	Not applicable
Secure Apps Manager for AppStation	9.0.0.0	Not applicable

Device OS

The following table provides supported and compatible information for the device OS.

TABLE 3. SUPPORTED OS VERSIONS

Device OS	Supported version	Compatible version
Android	5.1, 6.0, 7.0, 7.1, 8.0, 8.1, 9.0, 10.0, 11	5.0

Resolved issues

For resolved issues in previous releases, see [MobileIron AppStation Product Documentation Home Page](#) for that release.

This release does not contain any new resolved issues.

Known issues

For known issues found in previous releases, see [MobileIron AppStation Product Documentation Home Page](#) for that release.

This release does not contain any new known issues.

Limitations

For limitations found in previous releases, see [MobileIron AppStation Product Documentation Home Page](#) for that release.

This release does not contain any new limitations.

Documentation resources

MobileIron product documentation is available at <https://help.mobileiron.com/s/mil-productdocumentation>.

The *MobileIron Cloud Administrator Guide* is also available from your instance of MobileIron Cloud by clicking on the **Help** link in the user interface.

MobileIron Support credentials are required to access documentation in the Support Community.
