# About the PIV-D Manager app for iOS

The PIV-D Manager app for iOS, which is an AppConnect app, is part of MobileIron's solution for providing derived credentials to iOS devices. These credentials are derived from the credentials on a device user's smart card. AppConnect apps, including Web@Work, Docs@Work and Email+, can use the identity certificates in the derived credential for the same purposes that they use any identity certificate.

The PIV-D Manager app supports derived credentials from these derived credentials providers:

- Entrust
- DISA Purebred

When you launch the PIV-D Manager app, you choose which derived credential provider you are using.

## New features summary

For the summary of new features introduced in previous releases, see [MobileIron PIV-D Manager for iOS Product Documentation](#) for that release.

This release includes the following new features and enhancements:

- **iOS 13 compatibility:** This release provides compatibility for iOS 13 and updates the following:
  - AppConnect SDK 4.4.0
  - Entrust SDK 3.4.2
- **MobileIron rebranding:** MobileIron has rebranded its product portfolio. As a result, you should see the new MobileIron logo and related product icons when you upgrade. Some product guides might still display the older logo or icons as MobileIron manages the change across the documentation set, but the functionality is unchanged.

## Support and compatibility

The information in this section includes the components MobileIron supports with this product.

NOTE: The information provided is current at the time of this release. For MobileIron product versions released after this release, see that product version's release notes for the most current support and compatibility information.

- [Support policy](#)
- [Supported and compatible product versions](#)

## Support policy

MobileIron defines supported and compatible as follows:

TABLE 1. DEFINITIONS OF SUPPORTED AND COMPATIBLE

Supported product versions	The functionality of the product and version with currently supported releases was systematically tested as part of the current release and, therefore, will be supported.
Compatible product versions	The functionality of the product and version with currently supported releases has not been systematically tested as part of the current release, and therefore not supported. Based on previous testing (if applicable), the product and version is expected to function with currently supported releases.

## Supported and compatible product versions

The following table summarizes supported and compatible product versions for this release of the PIV-D Manager app. This information is current at the time of this release. For MobileIron product versions released after this PIV-D Entrust app release, see that product version's release notes for the most current support and compatibility information.

TABLE 2. SUPPORT AND COMPATIBILITY FOR THE PIV-D MANAGER APP FOR iOS

Product	Supported versions	Compatible versions
iOS	iOS 10.0 - iOS 12.1.4	iOS 13
MobileIron Core	10.3.0.2, 10.4.0.1	8.0.0.0 - 10.2.0.2
Mobile@Work for iOS	12.0.0	10.0.0 - 11.1.1
MobileIron Cloud	R64	Not applicable Only the latest version is available to all customers.
MobileIron Go for iOS	5.1.0	3.5.0 - 5.0.0
Email+ for iOS	3.10.2	2.2.3 - 3.10.0
Web@Work for iOS	2.9	1.9.2 - 2.9.0
Docs@Work for iOS	2.12.0	2.1.0 - 2.11.0

## Resolved issues

See [PIV-D Manager app for iOS product documentation](#) for release notes describing resolved issues fixed in previous releases.

This release includes the following new resolved issues:

- ICM-298: For clarity, **PIN** is changed to **Derived Credential PIN**.

## Known issues

See [PIV-D Manager app for iOS product documentation](#) for release notes describing known issues found in previous releases.

This release has no known issues.

## Limitations

See [PIV-D Manager app for iOS product documentation](#) for release notes describing limitations found in previous releases.

This release has no limitations.

## Documentation resources

MobileIron product documentation is available at <https://help.mobileiron.com/s/mil-productdocumentation>.

The *MobileIron Cloud Administrator Guide* is also available from your instance of MobileIron Cloud by clicking on the **Help** link in the user interface.

MobileIron Support credentials are required to access documentation in the Support Community.
